Juan:
Here are some photos of the different camera positions at Depot Street where we might need to add on a few cameras with a little more range or distance at the exterior. I know that shots along DEPOT might be good , across the street and covering the blind spot between the 2 buildings, as well as the ability to capture license numbers in the driveway. I am anxious to hear the position of SMPD on the ALPR's and possibly one for DEPOT.
I have copied SMPD here.

Let me know what SOLUTIONZ (camera expert) says and they should definitely speak with site staff, in particular the Caretakers since they are on site in the evening. Sergio and Angelica are copied here. I would like their input.

Thank you.
Sanford
